**WHAT'S HAPPENING
IN THE CRYPTO WORLD?**

01

1. WHAT'S HAPPENING IN CRYPTO MARKET

LAUNCHPAD IS CURRENTLY AN EMERGING TREND IN CRYPTOVERSE

As it serves the burning need of crypto users in finding the hidden gems for profit multiplication.

1. WHAT'S HAPPENING IN CRYPTO MARKET

YET, CURRENT LAUNCHPADS STILL HAVEN'T SATISFIED EVERY STAKEHOLDERS IN THE MARKET

STAKEHOLDERS

DEFI PROJECTS

- Projects only attract token holders in the early stages of the IDO. When the allocation is done and the token price was rocketed, they would easily face with a token dump

MASS USERS (with limited fund)

- As there is only a very few slots for each IDO, token holders have very small chances to get whitelisted and multiply their financial assets.
- Moreover, each launchpad often only showcase projects built on one particular blockchain system, which limits the access of token holders to a wide variety of projects in other systems.

WHALES HOLDERS (with abundant resources)

- Projects introduced by other launchpad are often still in development stages, making whale token holders struggle to acknowledge the tangible products and hence can't forecast its growth potential.
- With abundant financial resources, they also demand more exclusive benefits and accesses to upcoming IDO projects on the launchpad if they invest to that project.

PAIN POINTS WITH CURRENT LAUNCHPADS

1. WHAT'S HAPPENING IN CRYPTO MARKET

**AND THEY ALSO
HAVE TO FACE WITH
UNSUSTAINABLE
LONG-TERM
VALUATION**

The increase of launchpads' tokens value is not sustainable without a proper mechanism to maintain and monitor the token, other than just the typical tiers & staking system.

Therefore, we created a launchpad with
revolutionary innovations that solves

**EACH AND EVERY
PAIN POINT**

of stakeholders in launchpad market.

OUR REVOLUTIONARY
INNOVATIONS

02

2. OUR REVOLUTIONARY INNOVATIONS

INNOVATION 1

UNIQUE TOKEN-COMMIT AND EXTENDED VESTING FOR INVESTORS WITHOUT HOLDING LAUNCHPAD TOKEN

Users who can't afford to buy launchpad token can get **guaranteed allocations** by committing to vest the tokens longer than the vesting schedule of projects. By this way, project owners can **have a considerable number of long-term holders** to support their project.

	Vesting terms (example)	Maximum Allocation value (USD)
Standard Vesting from Project A	100% token unlocked after listing	\$5
Extended vesting 1	100% token unlocked after 1 month from listing date	\$20
Extended vesting 2	100% token unlocked after 3 month from listing date	\$50

Example:

If project A public sale \$100,000, with token unlocked 100% upon listing, to get a guaranteed allocation, users would need to choose a few given options to unlock less & vesting longer (7 days, 1 month, 3 months, 6 months).

2. OUR REVOLUTIONARY INNOVATIONS

INNOVATION 2

AND A WELL-DESIGNED TIER RANKING SYSTEM FOR TOKENS HOLDERS

Tier ranking will offer community members **outstanding rewards**, including whitelist slots for Infinite Launch's upcoming IDO and many more.

INNOVATION 5

ALSO A CROSS-CHAIN GATEWAY WITH TOP-PICKED, TANGIBLE PROJECTS

That connect holders to carefully-selected projects with tangible products and services, regardless of their blockchain systems.

INFINITE LAUNCH

2. OUR REVOLUTIONARY INNOVATIONS

INFINITE LAUNCH

Connecting disruptive projects
with dedicated holders.

In short, we are a cross-chain launchpad for hand-picked DeFi & NFT projects with the first-ever mechanism where holders can lock away their tokens for guaranteed IDO allocations, without holding launchpad token.

**THE POWER OF
INFINITE LAUNCH TOKEN**

03

3. THE POWER OF INFINITE LAUNCH TOKEN

GREAT LAUNCHPAD COMES WITH GREAT TOKEN POWER

1

Game-fi utilities

\$ILA can be used to increase tier to get a guaranteed slot to join IDO on our platform. Besides, \$ILA will be used in our games to buy hero, equipments and more items.

2

Governance

Users can use \$ILA to make important decision via a voting mechanism, such as choosing the next project to support, features to develop, type of auction.

3

Staking

When staking \$ILA, users can receive rewards and participate in the work of governance.

4

Liquidity Mining

When contributing liquidity to the pools of INFINITE LAUNCH, users can receive rewards in the form of \$ILA.

5

NFT Club Membership

\$ILA holders club will have early access to massive NFT drops from the most famous artists all around the world.

6

Deflationary function

\$ILA token will increase value in long-term because of token deflationary function, with 1% burn fee in every transaction and 2% fee transfer to ILA reward pool, surging token value in the future.
